

My occupational health insurance (OHI)

My Hospital module

When we have well wishes for someone, their health comes first. Sometimes, however, a hospital stay is necessary to get healthy. In this case, excellent care is the most important thing. The statutory health insurance (SHI) does not cover the costs of accommodation in a quiet twin room. If you require specialist expertise, this is not covered by the SHI. The Hospital plan ensures that you receive optimal care.

Well-covered all round – these are the **benefits** provided by your OHI

**Private physician,

**Comfortable
accommodation

§ Good to know

What should I do if hospital treatment is required?

Simply let the hospital know that you have supplementary hospital insurance. You can find all the important information about your insurance in your digital Allianz Card for privately insured persons in the Allianz Gesundheits-App. The hospital usually settles the accommodation costs directly with us (not in case of private clinics). You will receive an invoice for medical benefits, which you submit to us.

Which benefits are not covered by the insurance?

The following are not insured, for example:

- Rehabilitation treatments/therapy
- Cures and sanatorium treatments
- The statutory co-payment of 10 EUR/day
- Dental benefits.

How long does my insurance cover last?

You have full health protection for as long as you are employed by your employer and the OHI is in place. Your OHI ends if you change employer, retire or have your 70th birthday. Our offer for you: You can continue your insurance privately in plans with similar benefits.

Where can I find all the details about Hospital?

For a more detailed overview of your insurance, please refer to the benefit information sheet. You will receive this when your employer registers you for OHI. The current insurance terms and conditions at the time of conclusion of the contract contain all binding contract contents. You can check these with your employer.

¹ Family members are, for example, spouses and partners, children or parents, grandparents and parents-in-law.

* A case is suitable if personal medical contact is not required according to generally recognized professional standards.

For example: simple symptoms such as skin changes (itching / redness) or general questions about health care.

All services are currently valid (as of December 2023). Individual services may be discontinued, supplemented, or amended in the future.
